

Meeting at a Glance
The 68th Southeastern Regional
Meeting of the American Chemical
Society
October 23-26, 2016
Columbia, SC

SUNDAY MORNING

**High School Chemistry: New Approaches to Catalyze
Change for YOU!!!**

SUNDAY AFTERNOON

Biological Chemistry - Enzymology

Asymmetric Chemistry throughout the Southeast

**Dynamics of Molecular Processes: Theory, Simulations and
Insight**

**Finding Solutions to Environmental Challenges in
Agriculture**

Inorganic Chemistry - Organometallic

Interdisciplinary Chemistry

Organic Chemistry - Synthetic Methodology

Polymer Chemistry - Synthesis

**High School Chemistry: New Approaches to Catalyze
Change for YOU!!!**

Biological Chemistry - Enzymology & Microbiology

SUNDAY EVENING

Analytical Chemistry Posters

Chemical Education Posters

Computation Chemistry Posters

MONDAY MORNING

Plenary Session

Advances in Forensics Chemistry

Analytical Chemistry - Spectroscopy

Asymmetric Chemistry throughout the Southeast

Chemical Education

Cutting Edge of Biological Inorganic Chemistry

Dynamics of Molecular Processes: Theory, Simulations and Insight

Inorganic Chemistry - Organometallic

Materials Chemistry

New Chemistry Toward Functional Polymeric Materials

Organic Chemistry - Natural Product Synthesis

Scattering Measurements of Polymers & Nanomaterials

Supramolecular Assemblies & Metal-Organic Frameworks

Women Chemists in the Southeast

MONDAY AFTERNOON

Advances in Forensics Chemistry

Chemical Education

Cutting Edge of Biological Inorganic Chemistry

Electronic Structure: Concepts & Applications

Inorganic Chemistry - Organometallic

New Chemistry Toward Functional Polymeric Materials

Organic Chemistry - Synthetic Methodology

Polymer Chemistry - Synthesis

Realities of the Chemical Industry: Career Opportunities & Paths

Scattering Measurements of Polymers & Nanomaterials

Structure-Property-Relationship of Nanoscale Materials -

Advances in Nanomaterial Characterization and

Properties

Supramolecular Assemblies & Metal-Organic Frameworks

Undergraduate Research Posters - Biological, Nano, &

Interdisciplinary Chemistry

Women Chemists in the Southeast

Undergraduate Research Posters - Organic & Physical Chemistry

Cutting Edge of Biological Inorganic Chemistry

Undergraduate Research Posters - Analytical & Inorganic Chemistry

TUESDAY MORNING

Plenary Session

Analytical Chemistry - Neuro- & Electrochemistry

Biological Chemistry - Structural Biology

Chemical Education

Cope Symposium: Molecules to Functional Supramolecular Materials

Cutting Edge of Biological Inorganic Chemistry

Electronic Structure: Concepts & Applications

Emerging Environmental Contaminants

Materials Chemistry - Nanoparticles

New Chemistry Toward Functional Polymeric Materials

Physical Chemistry - Theory/Computation

Structure-Property-Relationship of Nanoscale Materials - Spectroscopy, Surfaces & Catalysis

Synthesis & Application of Biofunctional Nanomaterials

Biological Chemistry Posters

Catalysis & Biocatalysis Posters

Frontiers in Nucleic Acid Chemistry Posters

Inorganic Chemistry - Bonding

TUESDAY AFTERNOON

Analytical Chemistry - Instrumentation

Biological Chemistry - Structural Biology

Catalysis & Biocatalysis

Colloid Chemistry

Cope Symposium: Molecules to Functional Supramolecular Materials

Cutting Edge of Biological Inorganic Chemistry

Electrocatalysis

Electronic Structure: Concepts & Applications

Emerging Environmental Contaminants

Environmental Chemistry Posters

Frontiers in Nucleic Acid Chemistry

Inorganic Chemistry - Solid State

Materials Chemistry Posters

Metal Complexes of Scorpionate & Related Ligands

Physical Chemistry Posters

Physical Chemistry - General

Reform Pedagogy in Undergraduate Chemistry

Structure-Property-Relationship of Nanoscale Materials -

Emerging Approaches to Synthesis and Patterning

Synthesis & Application of Biofunctional Nanomaterials

Molecules to Functional Supramolecular Materials

Colloid Chemistry Posters

**Organic Chemistry Posters
Polymer Chemistry Posters
Cutting Edge of Biological Inorganic Chemistry
Synthesis & Application of Biofunctional Nanomaterials**

WEDNESDAY MORNING

**Plenary Session
Biological Chemistry - Drug/Assay Development
Catalysis & Biocatalysis
Cope Symposium: Molecules to Functional Supramolecular
Materials
Electrocatalysis
Electronic Structure: Concepts & Applications
Environmental Chemistry
Frontiers in Nucleic Acid Chemistry
Inorganic Chemistry Posters
Interdisciplinary Chemistry Posters
Materials Chemistry - Solid State
Nuclear Power & Safety
Physical Chemistry - Theory/Computation
Polymer Chemistry - Materials
Small-Molecule Inorganic Chemistry in the Southeast:
Honoring Jerome Odom
Structural & Functional Characterization of Proteins
Molecules to Functional Supramolecular Materials**

WEDNESDAY AFTERNOON

**Biological Chemistry - Drug Development & Redox Biology
Catalysis & Biocatalysis
Electrocatalysis
Environmental Chemistry
Frontiers in Nucleic Acid Chemistry
Materials Chemistry - General
Molecules to Functional Supramolecular Materials
Organic Chemistry
Physical Chemistry - Theory/Computation
Polymer Chemistry - Physical
Structural & Functional Characterization of Proteins**
